## EXPERIENCE

Dec 2025 - April 2026

### Rise Idiomas

*UI/UX designer & front-end developer*

Designed and developed a customizable CMS website with blog.

April 2026

### Quidute Portfolio

*UI/UX designer & front-end developer*

Designed visual identity and a solid design system that transmits my professional essence.

June 2025 - Dec 2025

### Flora

*UI/UX designer & mobile developer*

Designed and developed a SaaS platform for residential plant monitoring, working across the entire project lifecycle — from ideation and documentation to development and stakeholder presentations.

## SKILLS

### Design Thinking

The approach that allows me to think out of the box and have innovative ideas.

### Responsive Design

I ensure a consistent and seamless experience across all use cases.

### Web Performance

I prioritize performance and usability, delivering lightweight, polished experiences that fit naturally within the product's technology stack.

### Figma

Versatile tool for designing software.
